SUBJECT

Geospatial Information Processing Center (GIPC) Baseline 5.16.1 for the production of Controlled Image Base (CIB)

SUSPENSE DATE:

SUMMARY

PURPOSE: To extend National Imagery Transmission Format Standard (NITFS) compliance registration for the above mentioned component.

OBJECTIVE: To obtain NITFS compliance registration for the GIPC Baseline 5.16.1 system.

BACKGROUND: JITC previously completed NITFS compliance testing on GIPC Baseline 5.16.1 in

FACTS AND ASSUMPTIONS: GIPC Baseline 5.16.1 is NITFS compliant and Harris Corporation is seeking an extension while startup process of more NITF 2.0 testing.

ADVANTAGES AND DISADVANTAGES: Harris Corporation can continue to produce NITFS compliance registered CIB products with approval of this extension while startup process of more NITF 2.0 testing.

CONCLUSION: GIPC Baseline 5.16.1 component successfully completed NITFS compliance registration and this extension will allow Harris Corporation to continue to produce CIB data while more testing of NITF 2.0 is currently under going compliance testing.

RECOMMENDATION: The Portfolio Chief signs the cover letter, report and certificate.
