Reference: CJCSI 6212.01C, Interoperability and Supportability of National Security Systems, and Information Technology Systems

1. In accordance with the authority provided by the reference, the Interoperability Test Panel (ITP) concurs with your request for an Interim Certificate to Operate (ICTO) for the CENTCOM REDCOM ISDN GATEWAY EXCHANGE (IGX) COMMERCIAL SWITCH Version 6.0 R1 PB.
2. The ITP Chairman concurs with the recommendations of the Joint Interoperability Test Command (JITC) and the ITP members to grant an ICTO for the CENTCOM REDCOM IGX Switch Version 6.0 R1 PB while the JITC is completing interoperability certification testing. Testing is scheduled to be completed on 31 July 2004. This ICTO is effective beginning 9 April 2004 and expires on 30 September 2004. The ITP is issuing this ICTO as an administrative extension to the REDCOM IGX Version 6.0 PBX Switch dated 13 March 2003 in order to allow for completion of testing of the updated version and for CENTCOM units to program/budget for its implementation. To further extend this ICTO, the CENTCOM must provide a systems status update to the ITP in September 2004.
3. This ICTO is subject to the following conditions:
  - a. If, at the end of this ICTO, the REDCOM IGX Switch Version 6.0 R1 PB has not been interoperability certified or the ITP has not granted an ICTO extension, the ITP will consider it a candidate for removal from operational use.
4. The JITC point of contact is Mr. Joe Peeples, DSN 354-2802, Commercial (301) 744-2802, fax (301) 744-2688, or email: [peeplesj@ncr.disa.mil](mailto:peeplesj@ncr.disa.mil).
