Subject: Interim Certificate to Operate (ICTO) for the Nutrition Management Information System (NMIS) version 4.0

1. In accordance with the authority provided by reference, the Interoperability Test Panel (ITP) concurs with your request for an Interim Certificate to Operate (ICTO) with respect to the Nutrition Management Information System (NMIS) version 4.0. The ITP bases this concurrence upon your urgent operational requirement to field this system.
2. The ITP Chairman concurs with the recommendations of the Joint Interoperability Test Command (JITC) and the ITP members to grant an ICTO to the NMIS version 4.0 while the JITC is completing interoperability certification testing. This ICTO is effective beginning 24 September 2004 and expires on 31 March 2005.
3. This ICTO is subject to the following conditions:
 - a. DMLSS is to develop an ISP and develop requirements based on the ISP.
 - b. If, at the end of this ICTO, NMIS version 4.0 has not been joint interoperability certified, the ITP will consider it a candidate for removal from operational use.
