14 March 2005

SUBJECT: DoD Collaboration Interoperability Testing Program
Statement of Non-applicability

Upon evaluation, it has been determined that use of Microsoft's LiveMeeting 2005 on NIPRNet does not fall within the DoD requirement for testing for collaboration interoperability certification at the Joint Interoperability Test Command in Indian Head, Maryland.

If the product is intended to operate on the SIPRNet, or if DoD Collaboration Policy changes, re-evaluation will be required.

Allen R. Hynes
