Subject: DoD Collaboration Interoperability Testing Program
Statement of Non-Applicability

Dear Mr. De Angelis

Upon evaluation of capabilities provided and protocols employed, it has been determined that USO Videophone Model MM146, when used in the pilot program Operation Insight, does not fall within the DoD requirement for collaboration interoperability certification in accordance with DoD Collaboration Interoperability Test Procedures Version 8.6.

If the certification test procedures change, or if a revision of the product is released, re-evaluation will be required.

Allen R. Hynes
Chief, Collaboration Management Office, APD
