2. Waiver determination:

a. Reference (a) requests a five-year waiver for the RT-2036/ARC-210.

b. In line with recommendations provided in Reference (b), (c) and (d), Joint Staff J-6 grants a five-year certification waiver for MIL-STD-188-182A, 183A, and 181C/183B deficiencies under the following two conditions:

1) PMA-209 develop/distribute instructions educating operators on preventing ACE.

2) PMA-209 implement monitoring and owner developed EIRP management procedures.

Please provide documentation to JS when available. Failure to provide may result in rescission of this waiver.

3. Disclaimer. This waiver may be revoked at any time if it becomes apparent the use of the terminal creates a detrimental impact on other narrowband users. Additionally, the UHF C-SSE office must be notified of any subsequent planned hardware or software upgrades or changes to the tested configuration of the terminal prior to use over the satellite implementation. Upon receipt of the modification details, the UHF C-SSE will review and assess the proposed terminal changes to provide guidance regarding steps necessary to maintain the associated waiver.
